Benefits Of Atag Azelaic Acid Cream

In Treatment of Acne

Atag Azelaic Acid Cream treats acne, commonly called pimples. It kills the acne-causing bacteria and prevents spots or pimples from appearing. It usually takes a few weeks to have a noticeable effect so keep using it even if it appears not to be working. Sometimes acne may get worse before it gets better, however, with proper use, your skin will get clearer. The earlier you start using it, the less likely you are to get scars. This medicine will help improve your mood and uplift your confidence as your skin becomes acne-free.

How Atag Cream Works

Azelaic acid works by killing the acne-causing bacteria and reduces inflammation (redness and swelling) of the skin.
