The formula is carefully crafted to deliver visible results without harshness, making it suitable for even sensitive skin.

This powerful trio tackles skin imperfections from multiple angles. Azelaic acid, a naturally occurring dicarboxylic acid, works to exfoliate dead skin cells, unclog pores, and reduce the appearance of acne and hyperpigmentation. Silicic acid, a naturally occurring mineral, contributes to improved skin elasticity and firmness, helping to minimize the appearance of pores and fine lines. Niacinamide, a form of vitamin B3, further enhances the formula's effectiveness by regulating sebum production, reducing redness, and improving skin barrier function. Together, these ingredients create a potent, yet gentle, solution for achieving visibly healthier skin.

The remarkable benefits of Acid Azelaic Si Niacinamide extend beyond simply addressing blemishes. This advanced formula promotes a more even skin tone, reducing the appearance of dark spots and age spots for a more youthful and radiant complexion. It also strengthens the skin's natural barrier, improving its ability to retain moisture and protect itself against environmental stressors. The result is a healthier, more resilient skin that is better equipped to withstand the daily challenges it faces. You'll notice a significant improvement in your skin's overall texture, smoothness, and clarity with consistent use.
