Tretiheal 0.05 Cream is a form of vitamin A that is used to treat acne which appears as spots or pimples on your face, chest, or back. It also helps to smooth rough facial skin and to reduce fine wrinkles on the skin. It reduces excessive oil production of the skin.

Uses Of Tretiheal Cream

- Treatment of Acne
- Acute promyelocytic leukaemia

Benefits Of Tretiheal Cream

In Treatment of Acne

Tretiheal 0.05 Cream is a form of vitamin A. It helps treat acne by clearing skin pores and preventing spots or pimples from appearing. It usually takes several weeks to have a noticeable effect so keep using it even if it appears not to be working. Sometimes acne may get worse before it gets better, however, with proper use, your skin will get clearer. The earlier you start using it, the less likely you are to get scars. This medicine will help improve your mood and uplift your confidence as your skin becomes acne-free.

How Tretiheal Cream Works

Tretiheal 0.05 Cream is a form of vitamin A. When applied on the skin, it reduces oil production in the skin, replenishes acne-prone skin, and helps keep your pores open.
