USES OF TRETINOIN (RETIN A) GEL

- Treatment of [Acne](#)

BENEFITS OF TRETINOIN (RETIN A) GEL

[Tretinoin \(Retin A\) Gel 0.025](#) is a form of vitamin A. It helps treat acne by clearing skin pores and preventing spots or pimples from appearing. It usually takes several weeks to have a noticeable effect so keep using it even if it appears not to be working. Sometimes acne may get worse before it gets better, however, with proper use, your skin will get clearer. The earlier you start using it, the less likely you are to get scars. This medicine will help improve your mood and uplift your confidence as your skin becomes acne-free. It should not be used if you have eczema or sunburned skin.

HOW TRETINOIN (RETIN A) GEL WORKS

Tretinoin Gel 0.025 is a form of vitamin A. When applied on the skin, it reduces oil production in the skin, replenishes acne-prone skin, and helps keep your pores open.

SIDE EFFECTS OF TRETINOIN USP 0.025 GEL

Tretinoin may make you more sensitive to sunlight so you should limit exposure to the sun if possible. It may make your skin more fragile. It is advised, not to have any waxing (hair removal), or laser treatments during treatment. Pregnant women or women who are planning to get pregnant should not use tretinoin as it can lead to birth defects. Most side effects do not require any medical attention and disappear as your body adjusts to the medicine. Consult your doctor if they persist or if you're worried about them.

Common side effects of Tretinoin Gel

- Erythema (skin redness)
- Skin irritation
- Dry skin
- Dry lips
- Pale red skin
- Increased sensitivity to light

THINGS TO KEEP IN MIND

- Clean the area with water and a non-medicated soap. Let it dry for 20-30 minutes before applying Tretinoin Gel.
- It may increase the severity of the spots or pimples in the first few weeks of use. Continue using it as prescribed by your doctor.
- It may cause a stinging sensation or a feeling of warmth when you first start using it. Inform your doctor if this persists.
- Avoid exposure to sunlight while using Tretinoin Gel 0.025 as it increases the sensitivity of your skin. Use protective measures such as sunscreen or protective clothing.
- Avoid face waxing and laser treatment while using this medicine as it makes your skin more fragile.
- Avoid taking tetracycline (e.g. doxycycline) as it may reduce the Tretinoin Gel 0.025 activity.
- Do not use Tretinoin if you are pregnant.
- Inform your doctor if excessive skin dryness or skin sensitivity takes place.
