The synergistic combination of Tretinoin and Retinol in this Obagi product offers a potent yet balanced approach to skincare. Tretinoin, a retinoid known for its efficacy in treating acne and promoting cell turnover, works to unclog pores and reduce the appearance of acne scars. Simultaneously, Retinol, a gentler yet still effective retinoid, stimulates collagen production, improving skin elasticity and reducing the visibility of fine lines and wrinkles. This carefully formulated blend minimizes irritation while maximizing the benefits of both powerful ingredients, making it suitable for a range of skin types and concerns.

Obagi's Tretinoin & Retinol is more than just a skincare product; it's an investment in your skin's long-term health and beauty. By addressing the root causes of aging and blemishes, this product helps prevent future skin issues while dramatically improving your current complexion. You'll notice a significant improvement in skin tone and texture over time, with a reduction in the appearance of pores, age spots, and other imperfections. The result is a healthier, more even-toned, and radiant complexion that exudes confidence.
